OBJECT: RECOMMENDATION OF BRALEX TELECOM

To Whom It May Concern:

It is with great pleasure and enthusiasm that I am writing to offer a formal recommendation for Bralex Telecom, owned and operated by Greg Hallam and Dave LePoidevin. This company has proven to be a most valuable asset offering exceptional skill and ability in the planning, installation and deployment of our clinical cabling equipment and telecommunication/telephone/fax system.

My first contact with these gentlemen occurred during the planning of the Smiths Falls Nurse Practitioner-Led Clinic. During the course of those months, someone was always readily available and responded to our questions and needs in a timely and professional manner. Also presented were many creative ideas tempered with knowledge and experience which ensured we had the appropriate services and configurations in place. All of our cabling and telephone equipment was customized to meet the needs of our clinic.

Greg and Dave are an exemplary professional team who effortlessly coordinated our complete cabling and telecommunications installation and set-up collaborating around the various trades involved during our renovation. This was inclusive of unforeseen challenges to our timelines and funding delays. Our cabling and telephone equipment was supplied and installed as anticipated and we are extremely pleased with the high quality of all products. Bralex has remained readily available should we have any problems or issues, which we greatly appreciate.

Bralex is a distinguished company, with conscientious, energetic and proficient professionals who have demonstrated an exceptional cabling service. It has been a pleasure to work with both Greg and Dave. Our clinic renovation, set-up and ongoing cabling and telecommunication service needs, as spearheaded by Bralex has been a very positive experience, and I highly recommend the company.

Sincerely,

Nancy Unsworth
Executive Director
